

# RALLY CROSS 2 - OVERVIEW AND KEY FEATURES

---

Rally Cross 2 is an off-road racing game of control and lightning speed. In this exciting action-packed sequel, you can rip through all new treacherous terrain including asphalt, dirt, sand, gravel, water, mud, snow and ice. Players can choose from one of ten all-new rally cars for optimum speed and handling. Players can also experience their very own custom-made course, created using the game's Track Editor. Rally-style racing, improved car handling and control, and several thrilling play modes guarantee hard-core competitive fun in the race for the Rally Cross 2 Championship.

## KEY GAME FEATURES

- 12 incredibly detailed true 3-D courses all with real-time environment effects for a realistic rally experience
- 10 rally vehicles to choose from, with improved handling and real car physics
- All vehicles are fully customisable - give your vehicle a re-spray or adjust your gearbox, tyres and brakes
- Race all the tracks in both directions or enter a suicide race with all your opponents coming at you at once!
- Intuitive game play control with automatic transmission for the beginner and manual for the advanced game player
- Supports the Analog Controller (DUAL SHOCK) - take control with both hands and feel all those 360° turns, car rolls and head-on smashes as they occur onscreen
- Comprehensive Track Editor lets you create impossible tracks from scratch! Design your own courses to put your vehicles - and those of your competitor - through their paces in the ultimate off-road challenge.
