

MY STREET

Game Overview

Within a bright, vibrant, sunny neighbourhood, birds are chirping, dogs are barking and kids are getting ready to play the day away. But this is no ordinary neighbourhood. Within each backyard, intense competitions are underway to see who rules the 'hood. Up to 4 kids in each yard (in single player or online play) are playing with chemicals, dodging remote controlled cars, playing volleyball and chasing each other through corn fields. With 7 games to play, there's no excuse for not getting outside and hanging with your buddies. Because if you're coming to this street, you better be prepared to play.
