

DR. MUTO™

Dr. Muto™ unleashes morphing technology, gruesome creatures and dangerous worlds in an all-new action-adventure videogame. *Dr. Muto* redefines the image of the proverbial “mad scientist” as players take on the personality of the game’s central character, Dr. Muto, whose latest experiment accidentally destroyed his home planet (with the exception of his laboratory). Muto tries to rebuild his destroyed world by harvesting resources from other nearby planets while dashing through a stylized universe, encountering dangerous challenges, freakish monstrosities, and battling his arch nemesis, the evil Professor Burnital.

Dr. Muto’s morphing isn’t just a gameplay feature, it is a unique mechanic that allows him to combine with living organisms in order to accomplish tasks no human could achieve. By morphing, Dr. Muto gains each creature’s abilities and physical attributes – such as the ability to cling to webs, squeeze into tight spaces, and breathe underwater – all to better crush, outwit and outlast more than ten different enemies.

As Dr. Muto, players forge through 22 vast levels on four distinct planet-scapes: from the junkyard world of Totltec, to the half-drowned water world of Aquem, through the smog-choked skies of Flotos, and finally the forbidden mines of Mazon. Armed with his newest invention – the Splizz-gun – Dr. Muto morphs into a variety of DNA-spliced-up creatures including an alien spider, miniature mouse and hulking gorilla.

Dr. Muto Key Features

- Explore 22 levels through four different worlds as players harvest resources and steal DNA to rebuild their home planet.
- Experiment with the fauna found throughout each of the worlds as players complete DNA formulas they need to morph into six different creatures, each with unique abilities.
- Use each world’s native Gomer – genetically engineered slaves – to trigger switches, activate puzzles and for any other purpose the mad doctor deems necessary!
- Overcome more than a dozen different enemy types, including cybernetically modified robo-dogs and rent-a-cops.
- Ready yourself for a full-on battle with the four chief bosses of each world before battling face-to-face with your arch nemesis, the evil Professor Burnital, for universal supremacy.
