Storyline
You wake up on a beach with no memory, gingerly touching a severe wound in your head. The only links to your past are the Roman numeral XIII tattooed on your shoulder, and the safe key from a bank in New York. Enter a stunning graphic novel world where mysterious forces are intent on gaining political control of the United States and eliminating you into the bargain. First you need to find out who you actually are, and why you are being chased. Then with a select few elite allies, you get your chance to fight back …

A deep plot from a highly respected comic book series
An intriguing storyline based on the conspiracy of a presidential assassination written by renowned comic book author, Jean Van Hamme

Varied gameplay styles
Explore areas using furtive stealth or all out action.. Reach vital areas and avoid ingenious traps with your grapnel hook. A unique radar-like "sixth sense" to warn of approaching enemies.

The first ever FPS graphic novel featuring cel-shaded graphics and unique Flashback visuals using the next-generation Unreal Technology
A unique graphic approach featuring cel-shaded characters and environments, occasionally slipping into an innovative Flashback limited palette.

Classic multiplay modes and innovative new cooperative challenges
Play popular multiplay modes such as capture-the-flag and deathmatch. Also engage in innovative new cooperative gameplay modes such as "Protection".
