

Beware the Dragon

Spellforce 2: Dragon Storm is the expansion to last year's highly acclaimed fusion of RTS and RPG - Shadow Wars.

With its unique mixing of genres, the Spellforce series has carved a loyal following and Dragon Storm takes the fantasy adventure into ferocious new territory.

This time around, the magic portals, linking the shattered islands of Eo are slowly losing their powers. In a desperate search for a new source of energy, you and a band of heroes set out on a journey to save the land. You will discover the ancient ruins of the Formers and their most feared foes, the Dragons, facing a storm that will change the face of Eo forever.

You will have to overcome many obstacles and unlock Eo's many mysteries, completing challenging quests to eventually form an alliance with the mighty Dragons.

Along with a new single player campaign, the expansion features more RPG action through special hero quests, a new skill tree and hundreds of new items, new enemies and a completely new Shaikan faction.

Spellforce 2: Dragon Storm will be distributed Australiawide from April 30th by N3VRF41L Publishing and Auran Games in late April. For more information visit www.auran.com.
