

"Hi I'm Bob McGuffin your host for tonight, welcome to S.K.P.T.V. 'The Freedom Network' for another chilling installment of Aironauts.

"As usual we've got our specially selected motley crew of criminals all aiming to grab the ultimate prize - 'their lives back'.

"You can expect to witness breathtaking flying sequences in the shape of the Air Race and RingMaster games. If you're a discerning viewer who has a yen for violence and carnage, you will love the Detonator, Minesweeper and the Dronehunt games, where the Aironauts will dice with death and stare in the face of danger."

**Game features:**

- Frantic flying action in full 3D environments.
- Eight different characters to choose from, each with a completely different set of characteristics.
- Over 60 levels of mind-blowing action, including 12 training missions for the complete beginner
- Full in-game commentary with superb CD music tracks.

Buy it, play it, live it, Aironauts, coming soon to a PlayStation near you.
