### 1.2 Overview

```
Overview
```

---

AppAssign allow to perform assign easily, without edit manually, just drop Icon of directory/volume on its AppIcon (or AppMenu).

And with the list of assigns, you can see assigns in memory and if you can remove some one.

It not eat lot of memory and its was full  
parametrable  
.

This program use the  
bgui.library  
.

## 1.3 Installation

Installation

Just click on the 'Install\_English' icon and answer the questions.

## 1.4 Parameters

Parameters

You can configure AppAssign with its Tool-types.

APPICON_X= <nombre>	Horizontale position of AppIcon.
APPICON_Y= <nombre>	Verticale position of AppIcon.
APPICON_NAME	Name of AppIcon.
APPMENU_NAME	Name of AppMenu.
ACTIVATE=YES NO	Allow to always activate the assign-edit gadget.
COPYNAME=YES NO	If the pathname is a directory (not a volume), this option allow to copy automatically the name of this directory in the assign-edit gadget.
CONFIRM=YES NO	Allow to confirm some action like removing of Assign, save..
CX_POPKEY	Hotkey for main window.
LIST_POPKEY	Hotkey for Assign-List.

---

## 1.5 GUI

### GUI

#### o Main GUI

When you drop a directory or volume on AppIcon/AppMenu or when you perform the Hotkey combinaison, the main GUI open.

Assign For edit name of assign.

to Path on which AppAssign will perform assign.

#### Mode

Normal Perform a normal assign.

Add Perform a ADD assign (see your AmigaDos manual).

Path Perform a PATH assign (see your AmigaDos manual).

Copy name If the pathname is a directory (not a volume), this button copy the name of this directory in the assign-edit gadget. Because a lot of assign-name is the same than directory-name. (MainActor: on ../MainActor).

Clear Clear the assign-edit gadget.

List Open list of assigns (see bellow).

Save to file This button allow to save the current-edit assign to file, like User-Startup.  
WARNING: It save the assign, but not perform it in memory, you must click on ASSIGN after.

Assign Perform assign.

Cancel Close window.

Quit Quit AppAssign.

#### o List of assigns

Information Display number of assigns.

List of assigns List of assigns.

Update	Update list of assigns.
Remove	Remove selected assign.

## 1.6 Disclaimer

Disclaimer

In spite of numerous tests, I can't guarantee that AppAssign contains no errors. You use this program at your own risk. I won't be in charge if the use of AppAssign is responsible for any direct or indirect damages.

## 1.7 License

License

AppAssign is freely distributable as long as NO MODIFICATION is made to the program or the package. It may NOT be distributed without its package.

It may be distributed in PD collections, on servers, networks or on CD-ROM.

AppAssign is GIFTWARE, this means that if you like it you should send me something like:

- Net-mail, financial-contribution, post card, programs, felicitations, A4000T..

It's a complete version, no limitations :-)

Commercial usage is prohibited without the agreement of the  
author  
.

Postal address:

DOGUET Emmanuel  
4, rue de Cornouailles  
50130 OCTEVILLE / FRANCE

## 1.13 bgui.library

bgui.library

BGUI allows you to easily create and manage font sensitive and size adjustable GUI's.

For the user, it allows you to have smaller programs with nice GUI's.

Features:

- Relatively small size
  - Font sensitive
  - Supports sizeable windows.
  - Free of charge (giftware), non-crippled
-

- Normal or XEN look
- Many type of frames
- Thin, Thick or Automatic gadget border
