

EyeToy Play 2

OVERVIEW

EyeToy Play™ 2 expands upon the revolutionary gameplay of the original EyeToy Play with new advancements in technology that make the 12 games in Play 2 more interactive than ever. Controlling the game using the body rather than a traditional controller, players can strut like a star in “AirGuitar” or punch and kick like Bruce Lee in “Kung 2”, as they work their way through a selection of fun and intuitive games. The EyeToy USB camera links to the PlayStation®2 allowing players to see themselves live on screen within the game, enabling them to physically interact with and manipulate characters and environments. EyeToy Play 2 features a plethora of crazy party games that are almost as much fun to watch as to play! Improved multi-player action means that two or three people can play together – standing up, jumping around and generally having fun, while friends and family look on. In addition, EyeToy Play 2 features SpyToy™, allowing players to turn their EyeToy camera into a fun security system that will record anyone that passes by!

KEY FEATURES

EyeToy Play 2 features 12 innovative games that are simple, accessible and fun:

- Kung 2** – A firm favourite in the original EyeToy Play, this enhanced sequel encourages people to show off their martial arts skills!
- Secret Agent** – Players must freeze in funny positions to avoid being caught by guards!
- BubblePop** – A successor to EyeToy Play’s Wishi Washi with a hint of Twister-type action mixed in!
- MrChef** – Players are stationed in a busy kitchen where they must flip burgers, mash potatoes and salt fries!
- MonkeyBars** – Players re-enact King Kong’s greatest scene – but backwards.
- D.I.Y. Olympix** – From painting rooms to knocking down walls – home improvement has never been so much fun!
- Knockout** – Another favourite from the original Play, but this time with more opponents!
- HomeRun** – Hit the ball and see which base you can sprint to!
- GoalAttack** – Put yourself in goal and see how many penalties you can save!
- TableTennis** – The ultimate test of coordination and reflexes!
- AirGuitar** – Strum and windmill using the EyeToy!
- Drummin’** – Test your musical skills and keep in time with the beat!

KEY FEATURES (continued)

SpyToy

- Now you can even turn your EyeToy camera into a fun security system!
- Set the camera to record anyone that passes by

More Multi-player action

- Turn your living room into a game show as you and your friends compete in more than 70 quick fire mini-games that showcase you hard earned skills from the single-player game.
- Play head-to-head with four players on one TV to determine once and for all who is the EyeToy Master!

Play and relax in the Playroom

The Playroom from the original game makes a welcome return with even more options and effects to play with, including innovative new features such as:

- Background subtraction, which allows players to be separated from the surrounding background and superimposed in a new environment
- Colour tracking, allowing players to control the action using brightly colored objects
- Audio Recognition, allowing players to control the action by using sound and music as input
- Motion Detection, allowing players to control the action using their movement
