I. CD-ROM Contents

Ulead™ Browser to open up the Photo Collection albums.

Photo Collection albums grouped in 5 themes (animals, countryside, flowers, mountains, seaside).

200 professional photographic images in .JPG and .BMP formats, ready for you to print.

II. Quick Start

This CD-ROM has a shell which permits you to access its contents and the installation functions. Just click on Lexmark.exe in the root directory of the CD-ROM.

You can install Ulead™ Browser on your hard drive or you can run it from the CD-ROM. It is not necessary to install the program on your hard drive. Only the English version can be installed to your hard drive.

If you are installing the program on your hard drive from the CD-ROM, you must run the SETUP program. If you are running the Ulead™ Browser directly from your CD-ROM, you should double click on the file Browser.exe.

You can also open the photographic images with other Photo editing software packages (e.g.: PhotoImpression™ on the Lexmark Workshop™ CD, or import these images into your other graphics applications, to work on them.

Together with Lexmark's ColorFine 2 driver, you will get the best out of these images, and have immediate access to quality digital image printing.

To print an image directly from the browser, first select your image by clicking on it. Then, in the **Album** menu, select **Print**, then **File**.

III. System Requirements

IBM Compatible, Intel 486's or higher and PS/2's. Minimum 4Mb RAM (8Mb recommended for Windows 95)

Windows 3.1X or Windows 95

VGA (or better) Windows supported graphics monitor (minimum 256 colors recommended)

Mouse or tablet supported by Windows

Access to the CD-ROM requires a CD-ROM player and driver software.
