

More Than 100 Levels!

NECHANIC MASTER

Game Description

MechanicMaster™ for the Nintendo DS™ is a fun problem-solving game for creative minds. MechanicMaster uses the stylus as a weapon to rid the Earth of alien invaders that have scattered across the planet. Become the ultimate Master of Mechanics by creating crazy contraptions to free humans, keep the mechanics in motion and defeat those pesky foes. Test your skills with more than 100 levels! Creative-thinking is key to clearing each level.

Key Features

Gadgets Galore: Use gravity shifters to change the direction of gravity, laser pistols and mirrors to cut objects, a vortex to make things disappear and many more gadgets designed to keep the mechanics in motion and clear the level.

Drawing Mode: Take the Nintendo DS stylus and draw your own solutions as you build platforms, walls, portals and more!

Level Editor: Design and create your own brain twisters and share them with friends to prove you are the greatest MechanicMaster!

Game Sharing: Share your own levels with friends over Nintendo Wi-Fi Connection.
