## **Why Use GWTW?**

GWTW is Windows application that enhances the play of the BBS door game Global War. Additionally, GWTW is a fully functional terminal program.

## **GWTW Command Line**

**Syntax:** `gwtw [options]`

### **Options:**

`/o` = do not send the modem init string

## **GWTW.INI**

GWTW.INI is a file that, in order to be read, must reside in the same directory as GWTW.EXE and is of the following form:

### **[GWTW]**

**Owner=**

### **[COMMUNICATIONS]**

**ComPort=1**

**Baud=2400**

**Parity=N**

**DataBits=8**

**StopBits=1**

**LocalEcho=N**

**FlowControl=N**

### **[KEYS]**

**F1=**

**F2=**

**F3=**

**F4=**

**F5=**

**F6=**

**F7=**

**F8=**

### **[MODEM]**

**InitString=ATQ0V1X3|**

**DialPrefix=ATDT**

**DialSuffix=|**

### **[CURRENT DIRECTORY]**

**Path=**

### **[DIRECTORY]**

**Name1=**

**Name2=**

**Name3=**

**Name4=**

**Name5=**

**Name6=**

**Name7=**

**Name8=**

**PhoneNumber1=**

**PhoneNumber2=**

**PhoneNumber3=**

**PhoneNumber4=**

**PhoneNumber5=**

**PhoneNumber6=**

**PhoneNumber7=**

**PhoneNumber8=**

**Dial=1**

### **[GW]**

**MapFile=war.clr**

The values shown above are the defaults. Registered users are given an encoded string for the Owner variable which results in the suppression of the registration requests. None of the variables are required, nor does GWTW.INI need to exist.

## **Virus Protection**

If GWTW detects that it has been modified in any way, it will refuse to run.

## **Why Register?**

The main reason to purchase any program is because it is ethically correct. Not registering is an abuse of the shareware concept and in the long run will cause this method of distribution to disappear. GWTW represents a large investment of time and money and as such the author expects compensation if you use GWTW beyond the trial period. You need only register once for all 1.x versions of GWTW.

## **Mouse**

Selection of this item toggles the special "click and send" feature. The current state if the mouse is always displayed.

With a word defined as a continuous sequence of a combination of letters, numbers, periods and colons, left clicking in a word will send the word. However, when a word that contains a colon is selected only the character immediately to the left of the colon will be sent. Additionally, abbreviated country names on the Global War maps are appropriately handled.

Right clicking always sends a carriage return as long as the mouse cursor is within the client area of the GWTW window..

## **Port**

Selection of this item toggles the state of the communications port. The current state of the port is always displayed.

In order to perform external file transfers, take the following actions:

1. Toggle the port off.
2. Run the file transfer program of your choice.
3. Toggle the port on.

**Clear Screen**

Selection of this item clears the screen.

## **File Transfer**

This menu item contains the sub-menus:

- Abort
- Download...
- Upload...
- Protocol

## Help

This menu item contains the sub-menus:

- Index
- About

## **Miscellaneous**

The vertical bar character (|) denotes a carriage return in a string.

If the port is off, the flashing cursor will not be displayed.
