Overview

Number fill is a 9x9 square grid.
These are divided into 9 3x3 grids.

- Your task is to fill in the empty boxes using only the numbers 1-9.
- You may only use each number 1 time on each row or column.
- In addition, you may only use each number 1 time in each of the smaller 3x3 squares

- The default values for Number Fill set up the easiest possible game.
- You may make the game harder by creating more empty boxes.
- You may also uncheck some of the Options to make the play of Number Fill harder.

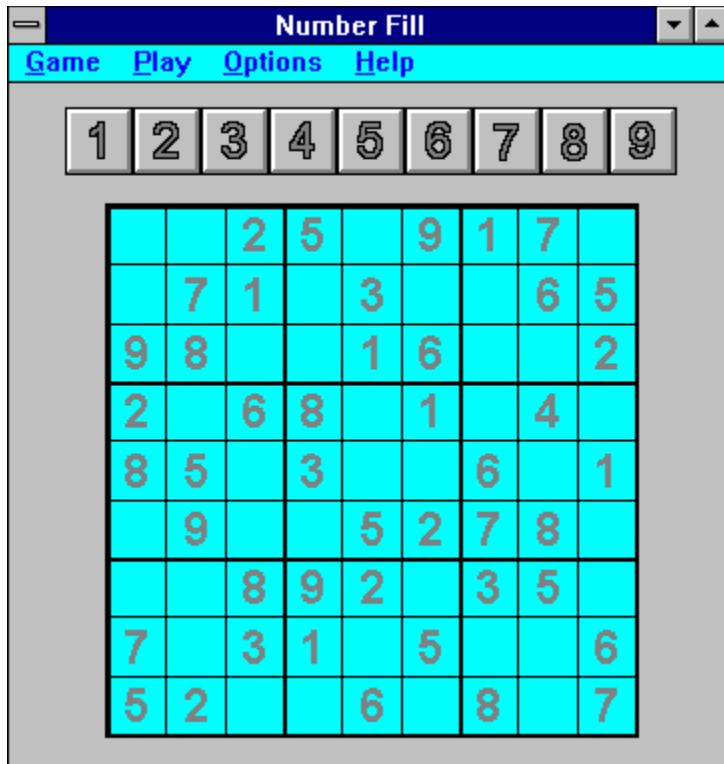

- You may Print Number Fill Games or Answers. This is especially useful if you are a teacher.

- Number Fill is written as Shareware. This means that I Receive **No** money unless you [Register](#). Any money you have paid goes only to pay for distribution.

- Register Number Fill to remove the opening screen and to receive notices of future upgrades.

How to Play

CLICK ON DIFFERENT PARTS OF THE FORM TO SEE WHAT THEY DO.

This is the board where the Game is played. Place your number by dragging it from the [Number Button Bar](#) or by clicking the [Right Mouse Button](#) over the square and selecting from the [Popup Menu](#). The [Options](#) you have selected will determine the results. The correct number will always be placed.

- Mistakes may be corrected by pressing Ctrl-Z or choosing [Undo](#) from the [Play Menu](#).
- You may put the number back by pressing Ctrl-Y or choosing [Redo](#) from the Play Menu.
- You may have Number Fill put a number in to get you started by pressing Ctrl-H or choosing [Hint](#) from the Play Menu

Options Menu

Game Level	✓ Easy
✓ Beep on <u>W</u> rong Entry	<u>M</u> edium
✓ Beep on <u>I</u> nEligible Entry	<u>H</u> ard
✓ Show Only <u>E</u> ligible Numbers	
<u>S</u> ave Options	

- Game Level: Choose from [Easy](#), [Medium](#) or [Hard](#).
- Beep on Wrong Entry: Will Beep and not accept the number if it is not the answer.
- Beep on [InEligible](#) Entry: Will Beep and not accept a number if there is already a number in the same row, column, or small square. Will accept an incorrect answer. When you reach an impasse, you will see the [Sorry Form](#).
- Show only [Eligible](#) Numbers: The [Popup Menu](#) will show only numbers not already found in the same row, column, or small square. (These are the numbers allowed by the Beep on InEligible Entry Option)
- Save Options: Saves Currently Selected Options to the NUMFILL.INI File.

About the Author

I am a Teacher at Logan Street Elementary School In the Los Angeles Unified School District. Logan Street is a Year Round School. School Starts on July 6 and continues through June 30. We take our vacations in 2 parts during the year, depending on our track.

I teach 4-5 grade. In the 1994-1995 School Year, I am teaming with one other teacher. I teach Mathematics and Reading.

I wrote Classroom Helper in 1988. At that time, I was finding that I was taking too much time writing letters to parents, keeping track of absent children, and calculating grades for our 2 mandatory Parent Conferences and the 4 report periods. After a year, I put it out the first DOS Version. The Current, and last, version of Classroom Helper for DOS is 4.1.

Other Shareware includes:

Private Communications Package which allows 2 computers to exchange files by modem.

Line Designer which creates designs for string art or printing.

Fontview which prints out custom font samples or allows screen preview.

Outside of teaching and programming, I climb Mountains. I am Chair of the Hundred Peaks Section of The Angeles Chapter of the Sierra Club. We have 276 Mountains on our list. I have climbed them all 3 or more times! I have also led trips up them all!

I also collect Science Fiction. I have over 3000 books. They are, of course, cataloged on my computer. In addition, I have 101 Songbooks. I play the recorder and guitar and collect Folk Songs, 8000+.

Registration Form

[Print Form](#)

I have found Number Fill useful and wish to continue to use it.

___ I am registering for \$10.00. I will receive a [Registration Code](#) in the mail and notices of Future Upgrades.

___ I am enclosing \$20.00. I will receive an installation disk in the mail. I will also be Registered and receive the Registration Code and notices of Future Upgrades.

Distribution

Unmodified copies of the Number Fill program and associated files may be made for your own use, to give without charge to others, or to distribute within a user group. User groups or other organizations may charge a fee up to \$7.50 (for duplication costs) to distribute Number Fill. The files below must be included in any distribution package:

SETUP.EXE
SETUP1.EX_
SETUP.LST
DDEML.DL_
NUMFILL.EX_
NUMFILL.HL_
NUMFILL.IC_
READ.ME
READ.ME_
VER.DL_
SETUPKIT.DL_
VBRUN300.DL_

Number Fill is supported by the users that find it productive. If you have benefited in some way from Number Fill or make regular use of it, please license your copy for \$10.00. Licensed users will be given a [Registration Code](#) and will receive published announcements of future releases of Number Fill.

The license fee is not an optional matter if Number Fill is used in a commercial environment, and must be paid for each copy of Number Fill maintained.

Disclaimer of Warranties and Limitation of Liabilities

Both Number Fill and this documentation are distributed without any express or implied warranties. No warranty of fitness for a particular purpose is offered. You, the user, are advised to experiment and become familiar with Number Fill before relying on it. You assume all risk for the use and operation of Number Fill, and you shall be responsible for any loss of profits, loss of savings, or other incidental or consequential damages arising out of the use or failure to use Number Fill, even if I have been advised of the possibility of such damages. I do not warrant that this documentation is accurate, or that Number Fill operates as I have claimed or as I have designed it to operate.

By using Number Fill, you agree to the above limitations.

Files

The Following Files are used in installation

SETUP.EXE	Used in to Start the Number Fill install
SETUP1.EX_	Installs the Program Files
SETUP.LST	Used by SETUP.EXE
DDEML.DL_	Used to install Icons to Program Manager
NUMFILL.EX_	Compressed Program File
NUMFILL.HL_	Compressed Help File
NUMFILL.IC_	Compressed Icon File
READ.ME	Read Me File
READ.ME_	Compressed Read Me File
VER.DL_	Version Checking tool
SETUPKIT.DL_	Used By SETUP1.EXE
VBRUN300.DL_	Needed to Run Number Fill

The Following Files are Left after installation:

WINDOWS\SYSTEM Directory. Do not delete as they may be used by other programs.

VER.DLL	Version Checking tool
SETUPKIT.DLL	Used By SETUP1.EXE
VBRUN300.DLL	Needed to Run Number Fill
DDEML.DLL	Used to install Icons to Program Manager

WINDOWS Directory

SETUP1.EXE	Installs the Program Files. May be deleted after installation
------------	---

Program Directory (Default is C:\NUMFILL)

NUMFILL.EXE	Program File
NUMFILL.HLP	Number Fills Help File
NUMFILL.INI	Saves Number Fills Configuration
NUMFILL.ICO	Icon File
READ.ME	Read Me File

Maximize Button

Click this button if you wish Number Fill to use the Entire Screen. Click again to restore Number Fill to its original size.

Number Buttons

Press the Left Mouse Button on the number you wish to use. Holding the Left Button, Drag the number to the place on the grid. Release the Button when the number is over the Square you have selected. The Options you have selected will determine the results. The correct number will always be placed.

Play Board

- *This is the board where the Game is played. Place your number by dragging it from the Number Button Bar or by clicking the Right Mouse Button over the square and selecting from the Popup Menu. The Options you have selected will determine the results. The correct number will always be placed.*

- *Mistakes may be corrected by pressing Ctrl-Z or choosing Undo from the Play Menu.*

- *You may put the number back by pressing Ctrl-Y or choosing Redo from the Play Menu.*

- *You may have Number Fill put a number in to get you started by pressing Ctrl-H or choosing Hint from the Play Menu*

Popup Menu

Appears when you click the Right Mouse Button over a blank game square. Click with either mouse button to make your choice. (You may also hold down the Right button and slide it to your choice and let go.)

Title Bar

This is the name of the program. It is also the text which appears under the Icon when you Minimize Number Fill.

Control Box

Use the Control Box to Minimize, Maximize, Move, or Close Number Fill.

Minimize Button

Use this to change Number Fill to an Icon on the desktop. You may restore Number Fill by pressing Alt-Tab until you see the Number Fill Icon or by double clicking on the Icon.

Undo

You may continue to undo until you are back at the start of the game. (Better to choose Restart from the Game Menu)

You may replace the numbers in the order you played them by pressing Ctrl-Y or choosing Redo from the Play Menu.

Redo

Redo cancels out all of the erasures you made using Undo.

(You will eventually return to the position you were in when you started pressing Undo.)

Restart

Erases all of your Entries and allows you to start the game over.

Hint

You may ask for as many hints as you think you need. However, you will not find this very satisfying.

Copyright

This program is protected by Copyright Law.

About the Author Button

Brings up information about [Number Fill's Programmer](#).

Icon on About Form

Clicking on this icon will show the Unregistered version of the About Form. There is no effect unless you [Register](#).
