Dear Sirs;

Thank you for taking the time to review my resume' and consider me for a position with your firm.

Should you require character references, here are a few for your convenience. Mr. Tony Kardashinetz at CPS, Inc., Fairfield, NJ. Mr. John Driscoll at 908-477-0742. Mrs. Maxine Brown at 908-381-7836. More are available at your request.

I have been with Optus Software, Inc. for 5 years and believe the recent change of company direction has limited me, thus feel it is in my best interest and for my wife (we were recently married) to move on. Please see the resume'.

I can offer any size company my knowledge and experience with computers, networks and popular business software, in the way of installation, maintenance, training, repair and problem solving.

I would be interested in private business or governmental work, and find it refreshing to occasionally step outside my immediate expertise if needed. As mentioned in my resume', I have also studied computer programming, architectural and technical drafting, and am artistically inclined with freehand drawing and painting, and find computer art work a fascinating and useful field.

Sincerely,

Peter H. Baitz
