How to Play Block Breaker

Object

Object of this game is to break all the blocks (except Gold blocks) by hitting the ball with the paddle.

Mouse

By default, you can use mouse to control the paddle. Press the left mouse button to start the ball moving, and the right mouse button to pause.

Keyboard

If you would like to control the paddle by keyboard, you can do so by selecting "Use Keyboard" from Settings under the Option menu. Press the left or right arrow key to move the paddle. By pressing the Shift key with an arrow key, you can move the paddle faster. Press the space bar to start the ball moving, and the Esc key to pause.

Block Types

Gold blocks These blocks can not be broken.

Silver blocks These blocks will break after being hit three times.

Colored blocks These blocks will break after a single hit.

Block Breaker [Game] Menu

New

Starts the game from the beginning.

Pause

Pauses the game so you can do something else without losing your position in the game. You can resume the game by clicking the left mouse button.

Resume

Resumes the game from pausing.

Demonstration

Starts a new game with the computer controlling the paddle. This will let you see how to play the game.

Stage Forward

Advances to the next stage of the game.

Stage Backward

Returns to the previous stage of the game.

Exit

Immediately exits the game.

Block Breaker [Option] Menu

Pattern

Lets you load a pattern created with the Block Breaker Editor.

Settings

This section lets you configure Block Breaker. See also [\[Settings\] Dialog](#)

Sound

This section lets you to configure the sound effect and music. See also [\[Sound\] Dialog](#)

Invoke Block Breaker Editor

Invokes the [Block Breaker Editor](#). This allows you to create your own patterns.

[Settings] Dialog

Speed

Allows you to control the pace of the game.

Use

Allows you to choose the mouse or the keyboard to control the paddle.

Hide Mouse Cursor

Selecting this checkbox causes the mouse cursor hide when playing.

Save Size when Exiting

If this box is checked, the window position will be saved when exiting the game.

[Sound] Dialog

Music

Selecting this check box will enable the music play while starting the new game, etc.

Effect

Selecting this check box will enable the sound effect when the ball bounces, etc.

Source

Allows you to change the sound source.

Multimedia

Multimedia means both WAVE and MIDI sources. You need a Windows compatible sound card or Multimedia PC to have this advantage.

Beep

The conventional beep sound from a PC speaker.

Music Settings

Opens [\[Music Settings\] Dialog](#) where you can assign your favorite music during the play.

Effect Settings

Invokes Control Panel where you can assign your favorite sound files to various events.

[Register] Dialog

Checking this menu will cause an extra ball to be added after completing the current stage when playing the game.

Messages

Change the title text and the message displayed after completing all the stages when playing the game.

Erase This Stage

Clears all the blocks in the current stage.

How to Register

Request for Registration

If you decide to continue to play the game, please register this shareware with your name. Your contributions will be used to make better software. Foreign registration is welcome.

The registration fee

In addition to Block Breaker, you can register other EmSoft Windows games. Please add a floppy disk handling and shipping cost unless you order through CompuServe. The floppy disk will include the latest version of Block Breaker and other EmSoft Windows games.

The registration fee per program: US\$10.00 or £8.00 Sterling or DM20,00 or 1,200 yen

A floppy disk handling and shipping: US\$5.00 or £4.00 Sterling or DM10,00 or 500 yen

How to register

If you have a CompuServe ID

You can use the Shareware Registration Service in CompuServe by "**GO SWREG**". The registration ID for Block Breaker is 522. If you use this service, CompuServe will notify me that you have used the service, and I will soon e-mail you the registration information. However, a floppy disk cannot be ordered through CompuServe because the newer version is always available in the WINFUN forum library (GO WINFUN). Here is how to register on CompuServe. From any prompt on CompuServe, type:

```
GO SWREG (goes to Register Shareware Menu)
2 (Register Shareware)
1 (Search by Registration ID)
522 (Registration ID for Block Breaker)
Y (Yes to 'Would you like to Register?')
```

You will receive the registration information directly from me usually within 24 hours.

If you do not have a CompuServe ID

Print and fill out the [Registration Request Form](#). Please allow 2-4 weeks for delivery.

In the U.S. or if your check or money order can be cashed through a U.S. bank

Please make out a check or money order to Yutaka Emura and send it to the following address with the registration form. A check or money order is acceptable if it can be cashed through a U.S. bank.

Yutaka Emura
920-1, Higashi-Hiratsuka,
Tsukuba, Ibaraki, 305 JAPAN
