MiraFIND V.1.4

1.1   MiraFIND V.1.4

MiraFIND V.1.4 (June '98) by Massimo Perfini

Introduction

Installation

How does it work ?

The author
          This program is Public Domain Software.

1.2   Introduction

MiraFIND works with AmigaGUIDE file made with
MiraNAVIGATOR.
This file are archive (in AmigaGUIDE format) for
view and extract LHA/LZX/DMS file.
For a complete description of these file read the
documentation of MiraNAVIGATOR.
MiraFIND examines the file and search a string of
characters then shows you in AmigaGUIDE format.
MitraFIND works only with this kind of file.

1.3   How does it work ?

```
                 At the start the program shows a simple interface.
In   the   gadget   "String"   you   may   specify   the
sequence of characters that you want to find.
The quest  will do in  the file indicated  in the
gadget "File" (This file must be created with the
use of MiraNAVIGATOR).
Use button "Search" to start the quest...
After few  seconds the list of file that contents
the string will  appear, now  you can extract  or
view them.
If something wrong read the
        Installation
         chapter.

```

1.4   Installation

```
                 MiraFIND needs:

  1 - MUI 3.0 (or above)

  2 - The comand "MultiView" must be placed in the
      path "SYS:Utilities/MultiView".

  3 - The program "Extractor" in "C:" or another
      search path.
