1.2 Introduction

Introduction

Pkb.mcc is a Custom Class of the
Magic User Interface
© by Stefan Stuntz.
It's a subclass of Virtgroup-class.

The aim of this class is to provide a piano keyboard for generic music
applications.

1.3 Installation

Requirements

Kickstart V39 (OS 3.x) or above.
68020 or better.

```
        MagicUserInterface
         V3.6 or above.
```

    To install Pkb simply copy the contents of the libs/ directory
to MUI:libs/mui/

    If you are a developer and you want to use the class, copy the developer
files to their respective locations. Developers must inform me if they
are using this class to ensure they get any news/updates!

1.4   Copyright and Disclaimer

                    1. COPYRIGHT

    1.1 Pkb classes and documentation

        This package is Copyright 1999 Calogero Calì.
        You may not alter the class binaries, documentation or the
        contents of this archive in any way without my explicit written
        permission.

    1.2 Using Pkb in your own programs

        If you wish to use Pkb in a freeware/emailware program then all
        you need to do is inform me you are using the class and place the
        following lines in the program documentation:

        "Pkb is Copyright 1999 Calogero Calì.
         Email: cdouble@tin.it"

        If your program is shareware then you should include the above
        text and send a full registered version of your program to me.

        Commercial use is not permitted unless the author obtains written
        permission from me.

    2. DISTRIBUTION

    2.1 Pkb classes and documentation.

        This package is Emailware, meaning you may re-distribute this
        package provided that you follow these points:

        2.1.1 The archive must be distributed as a whole, without any
              modifications. You are NOT allowed to add files to the
              distribution archive.

        2.1.2 This package may be freely distributed via BBSs, Internet/Usenet,
              software libraries like FredFish/Aminet (including Aminet CDs)
              and other similar channels.

        2.1.3 NO FEE may be charged for the distribution of the package

```
                beyond the reasonable cost of the distribution media.

        2.1.4 Magazines (including electronic/website based) and services
              that charge extra for file distribution, or provide a "coverdisk"
              (magnetic or CD) may NOT distribute the package without my
              written permission.

        2.1.5 If you use the software then
                give me some feedback
                ! Even if you
              only say thanks, I'd like to hear from you. Developers who wish to
              use the class must inform me so that I can keep them updated.

    3. DISCLAIMER

       By using this class, you accept the FULL responsibility for any damage,
       injury or loss which might occur through its use or the inability to
       use it.

    4. ACKNOWLEDGEMENTS

       This package does not contain MUI, it should be obtained
       separately, either from Aminet or from the MUI support site.
```

1.5 Magic User Interface

```
                    This application uses

                  MUI - MagicUserInterface

              (c) Copyright 1993-97 by Stefan Stuntz

MUI is a system to generate and maintain graphical user interfaces. With
the  aid  of  a  preferences program, the user of an application has the
ability to customize the outfit according to his personal taste.

MUI is distributed as shareware. To obtain a complete package containing
lots of examples and more information about registration please look for
a  file  called  "muiXXusr.lha"  (XX means the latest version number) on
your local bulletin boards or on public domain disks.

        If you want to register directly, feel free to send

                  DM 30.-  or  US$ 20.-

                          to

                    Stefan Stuntz
               Eduard-Spranger-Straße 7
```

```
                        80935 München
                          GERMANY

            Support and online registration is available at

                      http://www.sasg.com/
```

1.6 Contacting the author

```
    Contacting the author

    Email:
        cdouble@tin.it

    Snailmail:
        Calogero Calì
        via Dalmazia, 27
        92023 Campobello di Licata (AG)
        ITALY
