Released: May 1995
Copyright: 1995 MultiMedia Creation Co., Ltd. Thailand

System Requirements:
*   IBM AT or compatible, CPU 386SX 25Mhz or better
*   MS DOS 5.0 or later
*   Microsoft Windows 3.1
*   4 MB RAM or more
*   CD-ROM drive
*   2 MB available hard disk space
*   Mouse
*   256-color 640 x 480 display resolution
*   Supports Sound Blaster and Windows compatible sound cards

Getting Started

1. Turn on your computer and run Windows.
2. Insert the CD-ROM into your CD-ROM drive.
3. Choose RUN from the Windows Program Manager's File Menu.
4. Type D:\SETUP on the line labeled "Command Line" and press ENTER. (If
    your CD-ROM drive is other than D, type the drive's letter instead of D.) The
    Wonder Island icon will be installed in a program group named "Bukbik's
    Adventure".
5. Double-click the Wonder Island icon to start the program.

Uninstall Instructions

The Wonder Island icon and Bukbik's Adventure group icon can be removed
using the usual Windows "Program Manager's File Delete" procedure.   The
installation directory (the default directory name is "C:\WON-ENG") may also be
deleted with the Windows "File Manager's File Delete" procedure.

Troubleshooting

*   Some resident anti-virus programs may affect the installation of Bukbik's
    Adventure on Wonder Island. Therefore, you may need to disable the anti-
    virus program for proper installation. Please refer to your anti-virus technical
    manual for assistance.
*   For optimal performance, please close any open applications before running
    Bukbik's Adventure on Wonder Island.
*   It is strongly recommended that the program be run in 256 color, 640 x 480
    resolution for optimal video performance. If you choose to run in any other
    video mode or resolution, you may experience problems with the color pallete
    and program display. Please refer to your video card reference manual for
    assistance.
*   Bukbik's Adventure on Wonder Island does not support the Microsoft Windows
    "SWITCH TASK" function.
*   If a screen saver is installed in the Windows environment, you may want to
    disable it during game play. The screen saver may conflict with sound and
    video performance of Bukbik's Adventure on Wonder Island.
