Overview:

You finally passed your babysitting course and are ready to help your school fundraising efforts. But are you ready for 20 out of control houses filled with unruly kids, neverending chores and parties to manage, all before bedtime? Based on the hit multi-tasking PC simulation game, **Babysitting Mania** for the DS starts you off slow but ratchets up the mania as you scurry about tending to rambunctious kids and household tasks while maintaining your composure before the parents get home. Only the ultimate babysitter will survive!

Features:

- The sequel to the highly successful *Nanny Mania* PC game that's been downloaded 7 million times
- Play through more than 100 levels of fast-paced overlapping tasks and challenges! Feed, entertain and clean up after the children without losing your cool through 20 chaotic houses with indoor and outdoor areas
- Use the intuitive Touch Screen to manage all aspects of the household with speed and precision
- Prevent the kids from creating more havoc by strategically using "Timeouts"
- After cleaning the house, put the kids to bed at "Bedtime" before their parents get home
- Bonus birthday party levels increase the difficulty as neighborhood kids drop by to celebrate the special occasion
- Choose to play as the babysitter or bonus nanny character from *Nanny Mania*
- Care for children in various stages of their lives—from babies to toddlers to teens—it's up to you to manage them all!
