

# M O O N

Deliver Major Kane's brand of intergalactic diplomacy as you use powerful alien technology like the Lepton Spread - a particle shotgun that can tear your enemies a new black hole.

Renegade Kid's patented formula of sick and twisted FPS adventure, featuring a cinematic storyline and white-knuckle shooting action.

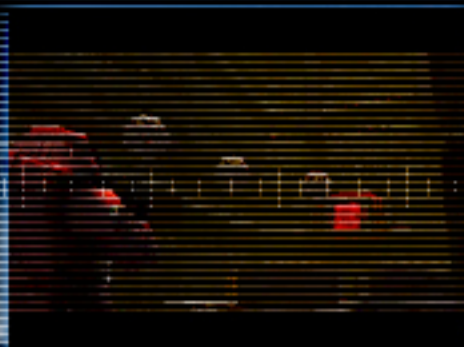

Built on the Renegade Kid Version 2.0 engine to deliver rich environments and robust FPS gameplay at a blistering 60 frames per second.

# M O O N

Collect alien artifacts and challenge insane difficulty levels to unlock hidden content - only the hardcore need apply.

Annihilate hostiles as you rip up the lunar landscape in your turret-equipped moon buggy, or pilot the Remote Search Droid to delve into the Moon's darkest corners.
