### **Overview:**

It was just an ordinary day in the life of Marker Man, the loveable stick figure, and his pal Doodle Dog. That all ended abruptly, however, when Doodle went missing without a trace. Guide Marker Man through hundreds of physics based puzzles using your stylus as a creative tool to safely bring Doodle Dog home!

### **Features:**

- Use the Touch Screen and stylus to draw your way through 150 challenging physics-based puzzles to get Marker Man from point A to point B in a scrolling world
- Draw simple geometric shapes including lines, boxes, circles, triangles and pivot points to create machines that help you progress from level to level
- Collect power-ups to help you solve difficult puzzles
- Use logic to make your way through themed levels including: Underwater, Outer Space, Snow/Ice, and more
- Sandbox play allows you to manipulate the unique physics of Marker Man in an open area
- Discover dozens of hidden areas and levels, each with unique surprises!
- Challenge your skills in three escalating difficulty modes
