Nintendo®

Pre-Installed Software: The system comes with multiple software titles and applications pre-installed. These include *Brain Age™ Express: Math*, *Brain Age Express: Arts & Letters, Photo Clock, Flipnote Studio™* and photo integration with Facebook.

Controls: Touch screen, embedded microphone for voice recognition, A/B/X/Y face buttons, + Control Pad, L/R shoulder buttons, Start and Select buttons, dual cameras and volume control. The stylus is approximately 5.091 inches (129.3 millimeters).

Microphone: Located at the center of the unit, which allows it to pick up spoken commands regardless of how the Nintendo DSi XL is positioned.

LED Lights: Visible even when the Nintendo DSi XL unit is closed. Three lights indicate if wireless communication function is on or off, whether the battery is being recharged and how much battery life is left before it needs to be recharged.

Input/Output: Ports for Nintendo DS game cards, an SD memory card (sold separately), an A/C Adaptor and stereo headphones and a microphone.

Other Features: Embedded *PictoChat™* software allows one user to draw pictures, or up to 16 users within local range of one another to chat at once; embedded real-time clock; date, time and alarm; touch-screen calibration.

Sound: Stereo speakers providing virtual surround sound, depending on the software.

Battery: Lithium ion battery delivering four to 17 hours of play on a three-hour charge, depending on use; power-saving sleep mode; A/C Adapter.

Languages: English, French, Spanish.

Parental Control: An easy-to-use option that allows parents or guardians to manage access to Nintendo DSiWare™ software based on the ESRB rating, *PictoChat*, DS Download Play, Nintendo DSi Browser, and certain user-created content that may not be appropriate for some members of their household. It can also help manage the use of Nintendo DSi Points™ in the Nintendo DSi Shop and wireless exchange of photo data. Nintendo DSi Parental Controls are not compatible with existing Nintendo DS software.
