

### About this updater...

This updater will update a copy of FullWrite 2.0 to version 2.0.1. The only difference between FullWrite 2.0 and 2.0.1 is a fix for an incompatibility with System 7.5. If you do not have System 7.5, you do not need this update, although it will not hurt.

This updater cannot work properly while virus detection software is running. Please make sure that you have disabled any virus detectors before using this updater. Don't forget to re-enable your virus detectors afterwards.

This updater was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to [Michael\\_Hecht@mac.sas.com](mailto:Michael_Hecht@mac.sas.com).
