Here's some more!

I did a sort of interactive **«Art Gallery»** visit.

Requests:

- Monitor 640 x 480 (at least) & 256 colours (at least, too)
- QuickTime 2.0
- 3 Mb RAM (at least)
- 9 Mb free on your Hard Disk

Attention: it doesn't seem to run on System 7.5.2 (don't ask me why... I'm not a programmer), but on all the other Systems 7 it's supposed to run (I checked it out!).

Ok, enjoy it

Take care, keep save & still... keep on rockin'
