### \* Orc's Comming \*

The orcs entered Azeroth blood hungry and powerful. They attacked with power and the humans stood no chance agensst the hord. The humans fell in no time. But you must make it happen. There are 12 puds and each diffrent, if you like it please download Doomhammer's Decline coming around November 30th or December 10th. Once I get Beyon the Dark Portal I will make 12 more puds for orcs and humans. I may update this text from time to time and update the puds too. If I get ideas I may make 1 or 2 more puds if I think of anything. The puds are named 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12. Nothing neat, just easier to keep track of the order of the puds. The e-mail address is not mine it's my friend's, I don't have the internet or e-mail, but he does. My friends that tested each pud said they were awsome or something like that. So enjoy. I have Win 3.11 and Textto'LE a text reader and this text may not appear the same on Win 95 as on my computer. I have included a converted form to wri form to see if it helps. If you can't use the map editor and have the internat look up [www.blizzard.com](http://www.blizzard.com) the Blizzard home page and they have win32s and wing the add-ons needed to use it.(only if you have windows version 3.1x)
