## Stackable Shape Options

**Number Of Shapes** If you choose **Smart Shape** under **Type**, the number you type here is the maximum number of shapes in the stack. Even if you stretch the shape beyond the maximum, no more shapes stack.

If you choose **Fixed Shape** under **Type**, the number you type here is the number of shapes in the stack.

**Spacing Between Shapes** Type the amount of space you want between shapes in the stack.

**Offset** Type an amount by which you want alternating shapes offset in the stack. Type 0 if you want no offset.
