Shareware Information

WAM+ is NOT free or in the public domain.   Even if you obtained it in a collection of shareware on a CD, bought it in a supermarket, or sent for it from a catalog, it is not paid for until it is registered.   You have only paid the distributor, not the author, and you are not a registered user.   You may copy and distribute it freely but should you find it useful and wish to use it beyond a <u>reasonable</u> trial period you are both legally and morally obliged to pay the license fee

Shareware <u>distribution</u> gives users a chance to try software before buying it. If you try a shareware program and continue using it, you are expected to register.   The essence of "user-supported" software is to provide personal computer users with inexpensive, high quality software while providing incentive for programmers to continue development of new products.

The registration fee will license one copy for use on any one computer at any one time.   You must treat this software "just like a book".   By this is meant that this software may be used by any number of people, and may be freely moved from one computer location to another, *as long as there is no possibility of it being used at one location while it's being used at another* - just as a book cannot be read by two different persons at the same time.

For information on registering through CompuServe's Software Registration Service see the <u>registration form</u>.

You may register by printing out a <u>registration form</u> and mailing it, along with your check or money order to <u>Equinox Software</u>.

Upgrades **on disk** will be provided in the U.S. and Canada for $5.95 (+ CA tax if applicable).   They will, however, be exactly the same as any upgrades available on the bulletin boards.

Bugs!!!???

We ain't got no bugs.

DISTRIBUTION

The author specifically grants the right to copy and distribute   WAM+, either to all and sundry or to a specific group PROVIDED THAT **ALL** FILES AS LISTED IN THE FILE LIST ARE INCLUDED.   Equinox requires <u>written permission</u> before a commercial disk vendor may copy their Shareware.

Anyone distributing WAM+ for any kind of remuneration must first <u>contact Equinox</u>.   This authorization will be automatically granted to distributors recognized by the ASP as adhering to its guidelines for shareware distributors, and such distributors may begin offering WAM+ immediately   (However Equinox must still be advised so that the distributor can be kept up-to-date with the latest version of WAM+)

DISCLAIMER - AGREEMENT

Entering Your ID Number

To personalize your copy of WAM+ and eliminate the "beg screen" once you have registered and received your ID number:

Start WAM+ in the normal way then click on one of the tabs to get to bring up one the dialog boxes and enable the menus.
Choose **File/Register** from the menu to display the dialog box.

Your ID number is based on your name.   You must enter your name and ID number EXACTLY as you received them.   The name is case-sensitive.   If your name is not spelled the way you would like to see it on the "cover" of the "book", please contact the author.

Contacting The Author

Please address all inquiries, correspondence, and registration forms to:

EQUINOX Software
2418 Fulton Street
San Francisco, CA 94118

You may also contact me by E-Mail on CompuServe at 71550,217
From an Internet node send Mail to 71550.217@compuserve.com

For pricing and registration information, please see the order form.

Why Register?

The benefits of registering WAM+ are:

The "beg" screens will not pop up any more.

You will receive support via CompuServe, the Internet, or U.S. Postal Service.   By "support" we mean help with installation difficulties, bugs (if any), or any incompatibilities between the software and your system.   See contacting the author.

Minor upgrades such as bug fixes or the addition of new categories are free if the program is downloaded.   Registered users will be informed of any **major** changes to the program.

You will give me, and other programmers, incentive to write more inexpensive software like this.

Best of all, you will not have to hide the program in shame from your friends because the words "**UNREGISTERED SHAREWARE**" appear on the "cover" of the "book".   Instead, **your very own name** will be **proudly displayed** there **in beautiful blue script!**   Click here for example.

Association of Shareware Professionals

As far as we can tell, the CompuServe Software Registration service makes no distinction between whether you need a disk or not.   There seems to be no way to charge different rates to those who wish a copy of the software on disk and those who don't.   The zip file, WAM14.ZIP, contains exactly what is on the disk. Since most people won't need a copy on disk of what they already have, we are charging only the registration fee, and will **not** be sending a disk even though SWREG asks you about disk size.

SWREG doesn't deal with discounts for more than one copy of the software either.   Equinox Software **does** offer price breaks for multiple copies so we suggest that you use this order form for other than single copies.
