

The End of the Road

Thanks for playing [Utopian Worlds](#)! All of us at [Omega Technologies](#) sincerely hope that you have enjoyed and have been impressed by [Utopian Worlds](#). All of the features packed into this tiny sample adventure are **simple** and **easy** to implement with just a few clicks of your mouse!

Remember, too, that not every single feature has been explored by this sample. Scripting was not touched. Events weren't explored in detail. Still, there was **plenty of features** for this sample!

So, if you've been impressed by [Utopian Worlds](#) and want to get your hands on a copy so you can begin creating **graphical** adventure with **a few mouse clicks**, click [here](#) for ordering information! Or, you can look at the file **order.txt** for an electronic order form.

Thanks for your interest in our system. We hope you've enjoyed the time you've spent playing this demo and we hope to hear from you! We look forward to adding your name to the ever-growing list of Utopian Worlds game developers. Thanks!

See [Ordering Information](#) for an ordering form. See [Utopian Worlds](#) for information on what you get with your order.

Utopian Worlds

Certainly by now youve realized the power of the Utopian Worlds system. Heres what you get if you order **now**:

- The **Utopian Worlds Development Suite** program, allowing you to create adventures easily.
- The **Utopian Worlds Adventure Player** program, allowing you to test your own adventures and play those created by others.
- The **Utopian Worlds Adventure Player Diskette** which is freely distributable, letting all of your friends play your adventures too.
- The **Utopian Worlds Expansion Catalog**, which contains information about expansion products and other products available from [Omega Technologies](#).
- A coupon for the first **Utopian Worlds Bonus Pack**, containing more graphics, sound, music, adventures and objects for you to use in your adventures!

See the following for ordering information:

Omega Technologies

Heres a list of other products from Omega Technologies that are available now or will be coming soon:

- **Utopian Worlds**
- **Scribe** - a program that allows you to create compact, fast electronic documents.
- **Startup Manager** - lets you completely customize your computers startup routine.

Utopian Worlds will be updated for Windows 95. That version is slated for release by December of this year. A version of Utopian Worlds for OS/2 Warp is also being developed. That is slated for release by November.

Scribe is a Windows 95 application, and it will be released the same day that Windows 95 is released.

Startup Manager is slated to be released in September.
