X-Wing Alliance Demo version 1.00

#####

Thank you for downloading the X-Wing Alliance Demo! We recommend that you read this file to get the most up-to-date information about running and maximizing performance of the X-Wing Alliance Demo.

#####

- 1) System Requirements
- 2) Quick Start
- 3) Uninstalling
- 4) How to Contact LucasArts

1) SYSTEM REQUIREMENTS

100% Windows 95/98 DirectX compatible computer required.

NOTE: Your system may require the latest DirectX drivers for your Windows 95/98 system.

Pentium 200 or faster required.

32 MB or higher RAM required.

2 MB PCI Graphics card required.

Optional 3D graphics support requires a Direct3D compatible 4MB PCI or AGP 3D accelerator.

Quad speed or faster CD-ROM drive required for the full version of the game.

100% Windows 95/98 DirectX compatible 16-bit sound card required.

Mouse, Keyboard and Joystick required. Optional support for Force-Feedback DirectInput compatible joysticks.

Microsoft DirectX 6.0 must be installed before playing the X-Wing Alliance demo. A link to the Microsoft DirectX page is available at the LucasArts website.

2) QUICK START

To run the X-Wing Alliance Demo, double-click Alliance.exe in your install folder (C:\Program Files\LucasArts\X-Wing Alliance Demo\ by default). Then select Play X-wing Alliance Demo on the Launcher.

This will take you to the Mission Description screen, where you can choose Quick Start, to jump right into flight, or view the mission briefing. Whether you choose to fly immediately or view the briefing first, you'll start off in the hangar. Select Launch or press the Spacebar to leave

the hangar.

Once in flight, you'll control your craft with the joystick. Pull back to lift the nose of your craft up, push forward to drop it. Moving the stick to the right or left will rotate your craft to the right or left, respectively.

Essential Controls

These are the basic keys you'll need to use if you want to start flying right away:

- R Target nearest enemy fighter
- E Target nearest craft targeting you
- T Cycle forward through targets
- O Target nearest objective
- N Next Hyperspace Buoy

Backspace Full Throttle

- [1/3 Throttle (You turn faster when you're flying at this speed.)
- W Switch weapon systems
- X Lock turret cannon forward
- G Go to gunner turret
- F (In cockpit) Tell turret to fire at current target
- F (In turret) Autopilot. Tracks current target.
- F9 Adjust cannon recharge rate
- F10 Adjust shield recharge rate
- F11 Preset #1
- F12 Preset #2
- ' Transfer laser energy to shields

4) HOW TO CONTACT LUCASARTS

CONTACTING LUCASARTS

LucasArts has set up a variety of services to provide you with information regarding our programs, hint & gameplay assistance, and technical support.

HINT LINE:

If you need a hint, you may call our automated Hint Line. The average call length is three minutes. This service

requires a touch tone phone.

NOTE: You must be at least 18 years old or have your parents' permission to call.

U. S.

1-900-740-JEDI (1-900-740-5334)

95 cents per minute

(The option to speak with a live Hint Operator is also available through this number)

Canada

1-900-677-JEDI (1-900-677-5334)

\$1.25 (U.S.) per minute

Where To Find Us Online

Visit the LucasArts Web site at <http://www.lucasarts.com>.

From there, you will have the option to receive online technical support through Yoda's Help Desk, browse technical documents, or leave a message for an online representative.

Yoda's Help Desk

We are proud to feature Yoda's Help Desk, which is available in the Technical Support section of the LucasArts Web site at <http://www.lucasarts.com/support/>. Yoda's Help Desk offers interactive solutions to technical issues based on information you provide. Visitors to Yoda's Help Desk will be able to receive technical support 24 hours a day, seven days a week.

Unfortunately, we cannot offer phone support for the X-Wing Alliance Demo.

When contacting us, please be sure to provide us with as much information as possible. Make sure to note the exact type of hardware that you are using in your system, including: your video card, sound card, CD-ROM drive, amount of RAM present, and the speed and manufacturer of your processor. Also, make sure to include the title and version of the program, and a detailed description of the problem.
