ULTIMATEJUDGE - ??????

Nuclear Strike - Levelcodes and more

Ok, here are some codes i figured from inside the game.

You may use these as level codes however not all seem to be accepted while others dont warp you to any Level.

If you want to reconfirm what i found (i surely missed some :) just check the NUKEPC.EXE at offset 43550 (hex) and process the bytes you find there.

example:

first level pw is: JUNGLEWAR

it is to be found at the mentioned offset like that:

0A 1D 06 0F 0D 1F 11 22 17

decode that as follows (very simple algorhythm):

(byte + 3C) XOR 0C = value -> e.g. (0A + 3C) XOR 0C = 4A ('J')

and the like ... Have fun.

Here's what i found - there might be some cheat inside already - I didnt check yet.

JUNGLEWAR
BUCCANEER
HAMMERHEAD
DETONATE
AFTERSHOCK
BLITZKRIEG
CHESSPIECE
NOMANSLAND
BASTILLE
LIGHTNING
UNLEADED
GUNSRUS
CHAINMAIL
ONETWO
APACHELITE
EAGLEEYE
CROSSEYED
OLDSCHOOL
DIG IT (you can't enter the words with a space in - at least i didnt figure how) SURFIN

SHARK BAIT
MAD BOMBER
CHEESYPOOF
MPH
PHOENIX
AVENGER
WARRIOR

As already mentioned - you cant enter all of em as valid passwords - maybe they are used as some cheat code or whatever.
iD MUD

--

Okay here's all the PlayStation/Nuclear Strike codes I know (these may also work for the PC version - but untested - they seem to fit with the above mentioned codes)

Level codes:

1: JUNGLEWAR
2: CUTTHROATS
3: COUNTDOWN
3B: PLUTONIUM
4: PUSAN
5: ARMAGEDDON
6: RMAGEDDON

5 Extra continues:WARRIOR

4 Extra continues:PHOENIX

Reconnaissance mode:EAGLEEYE

Reduce fuel consumption:MPG

Shhhh! Secret Level code is:LIGHTNING

Well thats it for now!!
