AFCD SURVEY
=====

In an effort to continually improve the quality of the Amiga Format CD, we want to hear from you on what mix of content you would like. Please either print this survey out and tick the boxes that apply, or e-mail it to us at: afcdsurvey@futurenet.co.uk with the subject "AFCD Survey".

PS. Please use an asterisk in the brackets for your choice and add comments to the bottom of the file. Cheers!

1. Do you find it easy to find things on the CD?

- Yes, very
- It's OK
- Needs some work
- I can't find anything

2. Is there any particular shareware category we should concentrate more on?

- Games
- Graphics
- Music
- Programming
- Internet software
- Demos
- Utilities
- Your idea? _____

3. Is CD³ support important to you?

- I should coco, I only have a CD³
 - It would be nice to autoboot on my A1200 to a menu of the games on the disc
 - What's a CD³?
-

4. If you have an internet connection, is our downloading internet utilities a waste of space for you?

- Yes, stop it immediately
- No, because I don't want to run my phone bill up enormously

5. Would you prefer NewIcons to MagicWB icons on the CD?

- Yes, definitely
- No, I prefer MWB infinitely
- I'm one of those awkward sods that wants both
- Just go back to standard 4 colour icons, please
- Who cares? Get a life, there are more important things to worry about than the icons on a CD!

6. Would you mind if there was a startup script on the CD that changed your font, screen and WBpattern settings (you would be able to change it back afterwards)?

- Aargh! Don't you dare!
- Oh go on then, I'm sure the mighty ones at Amiga Format know what they are doing
- Ho hum, if you must.
- Oooh please!

7. Do you want themed CDs? If so, what category would you like to see us fill the disc up with first?

- Games
- Graphics
- Music
- Programming
- Internet software
- Demos
- Utilities
- Your idea? _____

8. Did you like the VIScorp audio track and would you like more taped interviews or music?

- Yes and yes
- Yes and no
- No and yes
- No and no

9. Because there is less stuff to put onto a CD these days would you rather:

- We only filled the CD with as much good stuff as we can find
 - We filled the CD to the brim, but the quality might be a bit off
-

- We ran a CD every three months so that although the stuff on it might be old, the disc would be full
- Your idea?_____

10. Would you want to have stuff repeated on CDs, such as our Toulouse footage, software demos and so on? (and no, we won't be able to repeat coverdisks of yesteryear)

- Yes, if it filled the space up
- Yes, if it was still important
- No, I don't think so

11. Is there anything you'd really, really like to see on the CD?

12. Do you have any further suggestions for us?
