1.2   Introduction

```
PowerIcons is a little commodity that removes the Border around WB-Icons
when you drag them. It makes color 0 of the Icons transparent. This is
```

especially useful with NewIcons which introduced borderless (transparent)
Icons with V3.0. Anyway NewIcons did not remove the Border when you dragged
the Icons.

Note: You don't need NewIcons to use this Commodity!

1.3   Requirements

PowerIcons should run on any machine with Amiga OS 2 or higher. It might
not work on GFX-Boards! Someone please let me know if it does.

PowerIcons was developped on:

    AMIGA 1200 Kickstart 3.0 Workbench 3.0
    CPU 68030-50 FPU 68882-50 (Blizzard 1230/IV)
    2 MB CHIP / 8 MB FAST
    WESTERN DIGITAL 540 MB HD
    WEARNES CD 120-A DOUBLE-SPEED CD-ROM
    TRUST COMMUNICATOR 14K4 - MODEM

PowerIcons was created using the following Software:

    Hispeed Pascal
