

# How to Purchase

Solitaire Till Dawn is distributed under the shareware system. This means that you may take a copy home and try it out for up to 100 games. After that time, you should either pay for it, or delete it from your disk.

You can purchase Solitaire Till Dawn on the Web at <<http://order.kagi.com/?RH>>, or you can purchase via email, fax, or postal mail by using the Register program that comes with the Solitaire Till Dawn package.

## To purchase on the Web:

1. Visit <<http://order.kagi.com/?RH>> in your Web browser and fill in the form. Enter the number of copies you want to purchase (usually one) in the box labeled Solitaire Till Dawn for Macintosh.
2. Follow the instructions on the form to enter your name, address, and payment information.

## To use the Register program:

1. Open the Register application by double-clicking its icon. You'll see a window titled "Register."
2. Fill in your name and addresses in the boxes at the top of the window.
3. How many copies? Fill in the number of copies you want in the Solitaire Till Dawn "Single User" box.
4. Choose your method of payment from the pop-up menu labeled "Method."
5. Send in your payment. Payment should be sent to our distributor Kagi Shareware by following the directions in the "Payment Details" box.

## After You've Paid

Wait to receive an email message (or a postcard, if you did not provide an email address) from Kagi. The message will contain your registration key. If you pay by credit card, give a correct email address, and purchase on the Web or by email, you

will probably receive your registration key within 48 hours. If you pay by any other method, especially if you use postal mail, you may have to wait a few weeks to receive your registration key.

When you have your key, open Solitaire Till Dawn and click the Register button in the startup screen, or choose Register from the File menu. In the window that appears, click the button labeled Enter Key then enter your name and registration key. This will fully enable your copy of Solitaire Till Dawn. It will turn off the shareware reminders that you have been seeing in the startup screen and in other places in the program; it will restore the normal appearance of the cards if your demo period had expired; the program will start up faster, and so on.

Please be aware that the version of Solitaire Till Dawn that you downloaded should be complete and fully functional. We do not generally send anything back to you when you have paid, except for your registration key. The latest version of this program is available for downloading from our Web site at <http://www.semicolon.com/>. If you feel that your copy is not complete, or if you do not have the latest version, feel free to visit our Web site and download a new copy.

If you have any questions about your payment after you've made it, send email to our payment service Kagi Shareware at [admin@kagi.com](mailto:admin@kagi.com), and send a copy of your email to us at [support@semicolon.com](mailto:support@semicolon.com).

Questions about Solitaire Till Dawn itself should be sent only to us at [support@semicolon.com](mailto:support@semicolon.com). Kagi Shareware is only a payment service and cannot provide technical support.

## Free Upgrade

Solitaire Till Dawn 4.0 is free to previous customers of Solitaire Till Dawn, but it is the first version that requires a registration key. If you have already paid for any earlier version, the program will offer you a form to fill out so that you can apply for a free registration key. We are happy to send free keys to anyone who can offer proof of purchase, but we regret that we cannot send keys if you cannot give us enough information to verify your earlier purchase.
