IPIX Plug-In Readme File

IPIX Plug-in requirements:

• Netscape Navigator 3.0 or greater.

To view in 'Thousands of Colors' the preferred size of your

browser's memory should be set to approximately 13000K.

To view in '256 of Colors' the default size is adequate.

• Internet Explorer 3.1 or greater.

To view in 'Thousands of Colors' or '256 of Colors' the

default size is adequate.

Installation:

• Select Internet Explorer or Netscape Navigator.

• Select the volume on which your browser resides.

• Install the plug-in.

• RESTART your browser and the plug-in is ready for use.

**If you have installed a stand-alone viewer from us and

are using it as a helper application, you should remove it

from your browser's preferences before restarting.
