

PATHWAY TO GLORY

STORYLINE

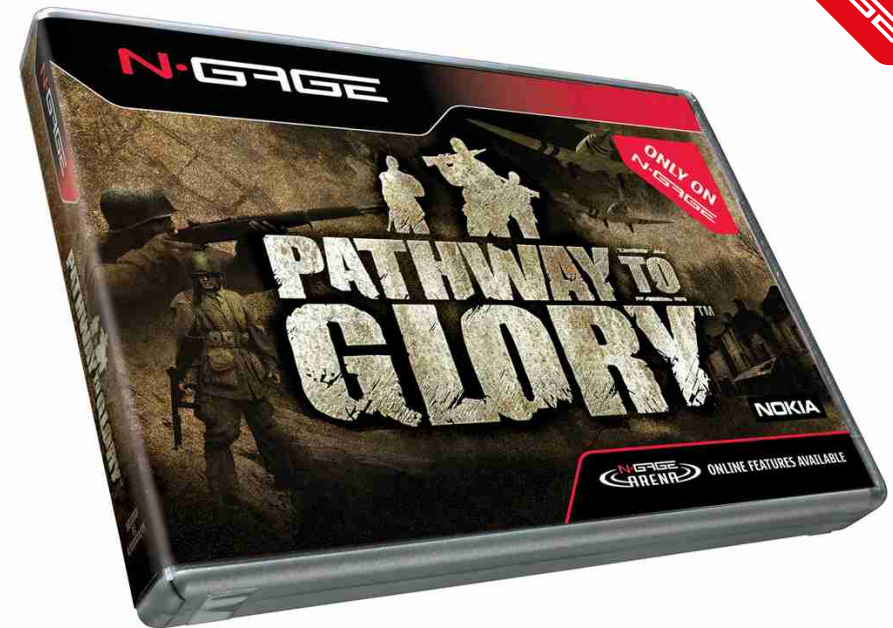

World War II in Southern Europe, 1943. The struggle for Europe is at a critical point. Special forces are urgently needed. Command a multinational unit of highly trained men, leading them as a team. Accomplish action-packed, historical missions by defending, ambushing, destroying and attacking. Experience the suspense of mobile community warfare.

GAME OVERVIEW

Pathway to Glory is an action packed, historically accurate strategy game situated in late WWII. The game features a compelling storyline for single player gaming, as well as exciting multiplayer battles locally with Bluetooth or Hot seat, or globally on N-Gage Arena.

Pathway to Glory is realistic down to detail, recreating convincingly the harsh reality of the battle zones. To ensure accuracy, historians and location shoots have been used extensively in the development of the game. The main user interface gives an excellent view for the battlefield and the game play mechanics are finely tuned for best possible experience. The player is able to use wide variety of equipment; even artillery and vehicles found from the battlefield are accessible. Every object in the battlefield is destroyable and once destroyed objects remain demolished, giving the player a possibility to manipulate the environment to affect gameplay. The depth of the experience and the vastness of the background work done on the game exceeds anything seen in mobile games before.

GAME FEATURES

- Only on N-Gage – not available on any other platform
- Global Mobile Community Warfare on N-Gage Arena
- The game contains a storyline campaign with 14 solo-player missions that are also playable co-operatively for up to 4 players via Bluetooth
- The Mobile Community Warfare game mode consists of 12 multiplayer missions and four different campaigns, both in the Local Battle Ground via Bluetooth or Global Battle Ground via the N-Gage Arena.
- In addition, all the levels are playable via a Hot Seat system that allows players to share one N-Gage device with friends but still play a multiplayer game against each other.
- The hybrid real-time gaming features are achieved through a revolutionary "Interrupt" mechanism, whereby players can use some of their soldier's available action points to defend their positions while their opponent is making his or her move.
