

# CONTENTS

<b>I - INTRODUCTION</b> .....	<b>1</b>
<b>II - PRESENTATION</b> .....	<b>3</b>
<b>Data and documents</b> .....	<b>3</b>
Data independence .....	3
Open-ended .....	3
<b>Implementation</b> .....	<b>3</b>
Ergonomics .....	3
Actors and features .....	4
<b>Group work</b> .....	<b>5</b>
Simultaneous sharing of documents.....	5
Communication transparency.....	5
Data security / integrity.....	5
Special case of DOS .....	5
<b>Specific Developments - Portability</b> .....	<b>5</b>
<b>III - SYSTEM REQUIREMENTS</b> .....	<b>6</b>
<b>Logical architecture</b> .....	<b>6</b>
Actors distribution.....	6
Data distribution .....	6
<b>Physical architecture</b> .....	<b>6</b>
Operating systems working with STEP ONE.....	6
Basic configuration.....	6
<b>IV - COMPARISONS</b> .....	<b>7</b>
Data and documents .....	7
Implementation .....	7
Group work .....	8
Configuration.....	8
<b>V - DIAGRAMS AND ILLUSTRATIONS</b> .....	<b>9</b>
