PC SERIES 300-P60 FEATURES

PCI 2.0/ISA slots
No SelectaBus™ in the 300-P60 models
Plug and Play capable
PCI SVGA 64 bit accelerator
PCI Enhanced IDE supports
  4 devices including IDE CD-ROM
Bayless PCMCIA front access support

273 pin ZIF socket (for P5T upgrade)
4 SIMM sockets - 72 pin SIMMs - Non-parity
Automatic Vertical Refresh Rate Utility
ISO 9241-3 capable
Energy Star compliant
Supports VESA DPMS and DDC
IBM Basic 101 (rubber dome) keyboard
IBM Enhanced Mouse

CUSTOM CONFIGURATION MATRIX

The models listed above are standard models that are expected to meet the majority of custom needs. IBM recognizes that some customers have requirements for additional configurations, along with the need for a simple source that defines the models. Therefore, IBM is providing the Custom Configuration Matrix below which defines additional model configurations beyond the standard models.

The product numbers (machine type and model) are constructed by using the Custom Configuration Matrix. Because the number of possible custom configurations is very great, some configurations may not be readily available and will require special bid terms and conditions.

	DRM Price
6575-10D = Base Model Number	$1990
65 _ 5 _ _ _	delta $
7 = SpaceSaver 3 x 3 Form Factor	+ 0
8 = Desktop 5 x 5 Form Factor	+ 86
5 = PCI/ISA riser card	+ 0
1 = Pentium - 60 MHz (256 L2 cache standard)	+ 0
0 = No IDE disk	+ 0
4 = 364 MB IDE disk	+ 173
5 = 540 MB IDE disk	+ 288
7 = 728 MB IDE disk	+ 403
8 = 1 GB IDE disk	+ 575
E = 8 MB memory, Open bay systems	+ 0
F = 8 MB memory, DOS 6.3/Windows 3.11	+ 52
G = 8 MB memory, OS/2 Warp Version 3	+ 52
H = 16 MB memory, DOS 6.3/Windows 3.11	+ 466
J = 16 MB memory, OS/2 Warp Version 3	+ 466
65xxxxx = New Machine Type Model Number (P/N)	$xxxx
