

BRIGHT IDEAS® CD-ROM CONTENTS

80 Images in both B&W and color. Bright Ideas® images come in three formats: PCX, TIF, and EPS. These images have been grouped together for easy access, as you will see in the directory structure below.

NOTE: Bright Ideas® magazine images marked with TIF will not have EPS copies. This is only done with highly detailed images.

Backgrounds (CD-ROM BONUS). A special bonus in each issue for CD-ROM subscribers only! Ten Really Cool Backgrounds! These backgrounds are pre-made for you in Adobe Photoshop. Why take the time to build new ones, when you will have a set of backgrounds at your fingertips? Your friends will be impressed and your clients will thank you.

Note: Backgrounds with an L in the filename were saved in a lower resolution. The H represents higher resolution. If you are low on memory please use the files marked with an L.

Image Index (CD-ROM BONUS). A list of images sorted by topic. You may import the catalog into any word processor and search by topic e.g. MAN -Child - girl. You will find this ASCII formatted text file in the \INDEX directory.

8 Unique typefaces Bright Ideas® fonts come in two formats: PostScript Type 1, and TrueType. Please refer to the directory structure below for location. Also note that ##### is the font identification number that we have assigned to a particular font. Please refer to Bright Ideas® magazine for the font and it's corresponding number.

3D Models Five 3D models available as wire-frame and TIF files. Each file is saved in DXF and TIF format and can be imported into most 3D imaging programs.

Software demos from Bright Ideas® magazines DTP Reviews. From time to time we will provide you with evaluation copies of software reviewed in our DTP Reviews. Look inside the \Demos directory for these programs.

CD-ROM DIRECTORY STRUCTURE
