Network Management Seminar
Technical Data

Course Number
HP 50749S
HP Educational Services: Your Key to Higher Productivity

Course Overview

This seminar provides intensive coverage of network management
topics and standards, and it allows students to become more
knowledgeable about network management and its impact on their
networks. In addition to learning about basic network management
components and terminology, students will see demonstrations of the
HP OpenView network management applications.

Course Features

┤   Understand what network management is and why it is needed
┤   Learn about the available network management tools and
services and why a company might want to install a network
┤   Understand network life cycles
┤   Learn open system interconnection (OSI) network management
definitions
┤   Understand the role of network management vendors
┤   Learn about future trends in network management

Specifications

Course Length: 1 day

Audience: Network managers, telecommunications managers, and
others interested in obtaining information about management tools for
effective network communications

Prerequisites: Basic understanding of data communications and
networks

Delivery Method: Classroom, onsite

Format: This seminar includes lectures and classroom discussions. Students will perform group exercises and view a demonstration of an HP OpenView network management application.

Education Benefits

Available at HP Classrooms or Your Site

Take advantage of HP's dedicated learning facilities, equipment, and interactive learning environment by attending class at one of HP's education centers. Or, save travel expenses and time by organizing an onsite delivery at your location.

- Extensive handsHP on practice
- Learn how to use the full capabilities of your system through handsHP on lab exercises.
- Taught by experienced HP instructors
- Learn from an experienced instructor familiar with HP products.
- Comprehensive Student Manual
- Receive a valuable reference source to assist you when you are back on the job.

Regularly Scheduled Classes

- Plan training months in advance.

Course Outline

- Introduction to network management
- Network management components
- Network management standards and architectures
- HP network management products
- Future directions of network management
