

The Best of Photography Volume 1

The Best of Photography Volume 1 is a collection of over 50 photographs available for free, non-commercial use. The photographs have been compiled from past and planned issues of NAUTILUS, the monthly multimedia CD ROM information service, and were selected especially for this disc because of their unique expression or cultural and historical influence.

On the Best of Photography Volume 1 you'll find a wide variety of photographs, including some beautiful scenes of Ireland and Niagara Falls, as well as beach water scenes from Florida and Cape Cod. There are photographs of barns and towers, churches and stadiums, trees and rocks, grass and cedar. And there are some really great NASA shots for you to enjoy -- a moment in history forever captured.

The photographs are provided in multiple formats:
Color 8-bit PICT and 24-bit TIFF for the Macintosh user
Color 8-bit PIC, GIF, DIB and 24-bit TIF for the PC user

You are welcome to submit your own photographs or slides to NAUTILUS! See the submission information in the NAUTILUS Services section on this disc for more information.

The Best of Photography Volume 1 has a suggested retail price of \$49.95, but NAUTILUS subscribers can purchase it for \$29.95. To place your order, see the order form (OFFERS.WRI) in the CD ROM Directory or call 800/637-3472 (614/766-3165 for International callers) or [Link to us](#). We look forward to hearing from you.
