

Programming Section
Ronald Kessler, N. Hollywood, CA, USA

I would like to have a section on programming languages like C++, Visual Basic, Turbo Pascal, etc.

TO: Ronald Kessler
FROM: The NAUTILUS Team

Your timing is impeccable! This issue we debut "C Faring," a new component of the Nemo Notes section. This ongoing "column" by NAUTILUS subscribers Ty Wait and Dave Parfrey will address programming issues for developers using C and C++. If any of you have information about other programming languages, tips to share, short-cuts, etc., send 'em in! And continue to let us know what would make NAUTILUS more valuable for you.
