1.2 Introduction

Introduction

So, I finally decided to release this little demo. Its been sitting on my hard drive now for ages, and I felt that it was about time that it was

released into the Amiga community.

Blues Party Tricks is about my Uncles dog named `Blue', who is a bit mischievous and disobedient, I must credit Alan for his idea.

1.3 Credits

Credits

All programming and graphics by Matthew Briggs (C)ENGINE NiNE DESiGN

Thanks to the author of the `Funky Bubble.mod`

Greets go out to:

Alan Brooke : Give the dog a bone!

Andrew Fitzgerald : Contact him on Dalnet #57 !

Robert Livesey : Tower power?

1.5 Important Notes

Important Notes

This is a demo which should not be taken seriously, infact it is crap, and should not be viewed whilst operating heavy machinery. View at your own risk.

It is also important to note that the dog `Blue` is not standing in his own excretion; It is infact mud. Boom^ of Dalnet channel #57_ was the one who pointed out to me that this may cause confusion.
