Thanks to my wife [Brenda](#) for creating the beautiful jewel artwork and for putting up with me spending hours and hours on my computer refining the game.

Thanks to [Jim Holt](#) for creating a truly great soundtrack for Jewelbox.

Special thanks to [john calhoun](#), author of Glider 4.0, Pararena 2.0 and Glypha for showing me the secrets of developing a game for the Macintosh. If you're looking for a great Mac game, buy one of his, you won't be sorry.

And finally, thanks to my play-testers; [John Garza](#), [Jim Holt](#), [Brenda Jacks](#), [Rick Pavek](#), and [Ingemar Ragnemalm](#) for their help, suggestions and encouragement. Because of their help, Jewelbox is a much better game.
