Component Toolbox 2.0 (Standard Edition)
March 95 Demo

The Component Toolbox is a series of 24 general purpose VBX controls. The following demo should give you a good idea of what the controls are capable of. The demo was written in Delphi and all controls in the demo have been tested and modified were necessary to ensure that they do work within this development environment. The actual package itself comes with source code for the demos in Visual Basic, dBase for Windows, and Delphi. (Please note, the source code is for the demos, and not the actual controls themselves)

To run the program, use the file manager and run CTDEMO.EXE

New Ordering Information

This product is currently shipping. It sells for a suggested list price of $90.00 plus shipping. There is a $5.00 cost for shipping (Canada & U.S.A.), $10.00 foreign, or $20.00 for Fed Ex. You can order through the following manner.

1. Register the product through Compuserve via SWREG #3852. The bill for the product will then be placed into your Compuserve bill. (No Fed Ex available this manner)

2. Order using VISA (sorry, no M.C. yet). Our phone number here is 1-800-670-8045.

3. Send a cheque directly to the address below.

Gamesman Inc.
1161 McMillan Avenue
Winnipeg Manitoba Canada
R3M 0T7

Tel : (204) 475-7903
