

CD Online:

If you have an internet connection, you can visit CD Online. This section offers you the opportunity to go on to the Internet directly from the CD. Visit the PCW web site, vnunet.com, and Jobworld.co.uk plus links to web sites of companies with software featured on this month's disk, technical information and a preview of what is coming up next month! Just click on the flashing strip at the top of the Main Menu screen.

Personal Computer World

Welcome to the January 1999 issue of the Personal Computer World.CD

Technical Support for the CD is available on **01685 354726** between 10.30am and 12.30pm and 1.30pm and 4.30pm from Monday to Friday. Please check the magazine first to see if products are supported directly by the manufacturers. VNU are unable to support all individual products fully and remind users that any software is loaded at their own risk.

The CD this month is split into 8 main sections:

Featured Software

Software Library

Entertainment Section

Hands On

CDOnline

CD Index

Reviews Index

Subscriptions

Credits

To go to one of the above sections on the CD-ROM, simply click on the section title, or associated icon on the Main menu screen.

To return to the Main menu, from any of the sections, click on the 'Return to main menu' button, at the top righthand corner of the screen.

To quit the program, click on the 'Quit' button.

The main title bar contains a ticker which will continue throughout the use of the disk. If you wish to hide the ticker, click the box with "T" at the right of the bar. If you wish to see the ticker again click the "T" again.

Entertainment:

A great section developed by multimedia company "In Chair Viewing", and featuring music, videos and exclusive film trailers,

ICV is rapidly establishing itself as a front runner in non-game multimedia entertainment. Since its conception three years ago the company has gone from strength placing its work on over seven million CD's around the world, the content ranging from movie promotions to enhanced music CD's.

Featured Software:

The featured software section of the Personal Computer World cover CD-ROM contains the latest and best application and games demos around.

To select a demo, click on one of the small icons on the first Features Software screen. You will then be given more info about your chosen product and (depending on the demo) can click on the play/install button.

To return to the small icon screen, click on the 'back' button.

This month the demos include

Applications

Xara WebStyle (Demo)

Christmas Magic (Interactive Advent Calendar)

Starry Night Basic (Time Limited Demo)

Hip Hop EJay (Demo)

Games

Player Manager (Demo)

The Fifth Element (Demo)

Robosaurs versus the Space B@*&t=)£s

Hands On:

This section is related to Personal Computer World Magazine's regular Hands On feature. Click on the large icon to launch your own copy of Acroread, and search through 12 months worth of priceless hints, tips and solutions to technical problems.

If you do not have acrobat/acroread installed on your HD, you will be asked to install Acroread 3.0 from the CD.

The right hand side of the screen contains software that is mentioned in the Hands On pages of this months magazine. To copy the software to your HD, hilight it by clicking on the name, then click on the 'Copy' button. To return to the contents page, click on the top left corner of the page.

(All the content for this section are located in the directory called 'HandsOn' in the root of the CD.)

Software Library:

Welcome to the Software Library section. This section is where you will find numerous invaluable utilities, resources, shareware products, and much more.

Simply click on the category you are interested in and then select your desired product. You will then be given information about that particular software and given the option to install/copy it to your Hard disk.

Alternatively browse the Software Library collection by using the back and forward arrow keys on your keyboard or screen.

To find out more information on the product chosen, click on the checkbox 'Import full text file ?'
