

Calamus® for Windows95™

Release notes

August 31, 1995

Calamus requires Windows95 build 905 in order to run correctly. Please use Windows95 build 905 (final) or later when running Calamus.

A PhotoShop 2.5/3.0 import/export filter is now included in the standard package. The filter (PSD.CXR) can be found in the Drivers sub-directory.
