POLYFORM DEMO README

PolyForm Demo V1.01
1995 (c) Vivid Technologies Corp.
800-962-POLY

Thank you for choosing PolyForm.

Windows 3.1 or 3.11 Users -

If you are using PolyForm under Windows 3.1 or 3.11, and you had installed Win32s, the Win32s directory located in the PolyForm directory can be deleted.

If you are experiencing an error called 'GROWSTUB' when you first run PolyForm, comment out the line that runs 'POINTER.EXE' in your WIN.INI file, found in your windows directory. (Note: you can comment out an item by putting a semi-colon in front of it on it's own line.)
