1. ABOUT CAM DEVELOPMENT

CAM Development is a developer of consumer and business software, web sites and specializes in development of custom software to aid small business.

2. CONTACTING US

Visit CAM Development on the Internet at:

<http://www.camdevelopment.com>

for the latest information, fixes, demos, trials and freeware.

3. SOFTWARE PRODUCTS

Minimum System Requirements for All Products:

- Pentium 75 MHz Processor or Higher
- 16 MB Memory (32 MB Recommended)
- Microsoft Windows 95/98/2000/NT 4 or later *
- 5MB Free Disk Space
- Printer Optional

* 16-bit versions for Windows 3.1 of some of our products are available on our web site.

3.1 MY PERSONAL DIARY

This is the information manager you've been looking for! My Personal Diary lets anyone and everyone keep a private diary, journal or log for personal or business use, but that's not all. Entries are stored in encrypted files with optional password protection and OLE support allows you to embed pictures, sounds and even other documents directly in your entries. A sophisticated search engine allows you to search any or all entries by date, for a word, sentence or phrase. Add to this a complete address book, to-do list and reminder system and you have a top notch information manager.

For HOME USERS, My Personal Diary is an excellent way to keep track of day to day activities, thoughts, goals, feelings and to record the important events in your life. Use the optional password protection to keep your entries safe from prying eyes. Use OLE to embed pictures and sound clips in your entries.

For BUSINESS USERS, My Personal Diary makes the ideal journal or log. Easily keep track of daily activities, notes, contacts, to-do items and virtually any other type of free-form information. Keep a separate journal for each client and store all notes, records and other documents right in the journal.

For SCIENTISTS and STUDENTS, My Personal Diary is the perfect log book. Keep detailed, secure

records of experiments and projects. Create a separate log for each experiment or project and keep notes organized by date. Use OLE to store charts, graphs and reports inside your log book.

For ANYONE, My Personal Diary is a great tool to keep track of virtually any type of information. Try it and you'll love it!

Features include:

- NEW! Multiple "pages" per entry.
