

## Postit Version 3.00 for Windows

Postit has gotten a face lift and has more of a Windows touch and feel, while still keeping the simplicity that has made it a popular notepad for Windows. Postit contains a help file that should answer any questions that you have about the program. To invoke the help file depress the F1 key while Postit is active, or select the **Information** menu item under the **Help** menu.

Postit is **shareware** which means that you can try the program before you buy it. I have seen statistics that state that only 1 of every 100 users registers shareware. I would hate to think that that statistic is true.

Postit is fully functional with the exception of the ability to select a personalized title bar and turn off the registration screen. Having the registration screen come up when you run Postit is a gentle reminder that you are still in the evaluation period. After a thirty day evaluation period you are expected to register the program. When you register Postit you will receive your registration number and after entering the registration information, your existing copy of Postit will become your registered copy. The registration fee for Postit is **\$10.00**. If you also want a diskette of the program for a master copy, with a fancy label you can order one for an additional **\$5.00** (strictly optional, you can make your own master disk, I will send you a label with your registration information).

If you have not registered your copy of Postit after ninety days, the program remains fully functional, but the reminders are more obnoxious.

Ordering Postit registration is very simple. Select Order from the registration screen, or select **Registration Form** from the **Pages** menu. Fill out the appropriate information which includes your:

- Name,*
- Address,*
- Phone Number,*
- Whether you want a diskette,*
- Where you got the shareware version of the program,*
- Your e-mail address if you want to get your registration number back quick (CompuServe, AOL, or Internet), and*
- Your credit card number and expiration date if paying by credit card.*

Once the registration form is filled out you can print it and send it by snail mail, or fax it. If you have a fax modem you can select the fax as your print device and send the file immediately from the registration form. You can also create the file ORDER.TXT which you can send in an e-mail message. Of course if you order by e-mail or fax, you will have to have a valid MasterCard or VISA number and expiration included with your order form. If ordering by snail mail you can send a check or money order payable in US dollars.

When your registration is received and processed you will receive your registration information. This will be sent by e-mail if that is what you have requested, and it will also be sent by snail mail with a diskette label or a diskette (if you ordered a diskette.)

Here are the addresses and phone numbers that you need:

Henning Associates  
Rt. 2 Box 526-A  
Crozet, VA 22932

voice/fax 800-823-6896 or 804-823-6896

CompuServe - 72176,2507  
AOL - MikerH1053  
Internet - mikerh1053@aol.com

Henning Associates has worked diligently to bring you the items that you have requested in our products. We are concerned about your satisfaction and are always open to comments and suggestions. If you have any please do not keep them to yourself.

If you need to read this file again at a later date, find it in your Postit directory with the file manager and double click on it.

Thanks for trying Postit,

Mike
