

ReadMe for Win Multiple Configurations

Copyright © 1993-1995 JRE Enterprises, All Rights Reserved

This package contains Win Multiple Configurations, by JRE Enterprises. This document contains only a brief description of the package and its features, along with instructions for its installation. After unzipping Win Multiple Configurations, view INSTALL.WRI for additional installation instructions.

Win Multiple Configurations (WMC) will allow you to save and use up to one-hundred different desktops. This includes having different SYSTEM.INI and WIN.INI configurations. Create desktops specific for your children, husband, wife and/or co-worker(s). Also, password protect any or all saved configuration entries -- a good way to protect against accidental access to certain applications and/or critical data. WMC requires VBRUN300.DLL and Windows 3.1. WMC now supports being installed on a server and being accessed by client workstations.

Win Multiple Configurations is a shareware program. This evaluation version includes all features of the program, and is not crippled in any way. You may use it for up to 30 days, without charge. If you like the program, and wish to continue its use after this evaluation period, you are required to pay for the program (see REGISTER.WRI for more details). Any fee you may have paid to others (disk vendors, dealers, etc.) to obtain this evaluation version was a fee for their copying and distribution services, rather than a payment for continued use of the program.

View REGISTER.WRI for current registration costs. Registration also can be done on CompuServe (GO SWREG, title "Win Multiple Configurations", registration id 662). Stop the annoying "Unregistered Shareware" message by registering today!

Also available from JRE Enterprises are programs JRE Exit, JRE Home Inventory, My Life, Win Change, Writer's Cramp, and Writer's Cramp LE. **JRE Exit** is a freeware utility that provides four different ways to exit Windows. **JRE Home Inventory** is the Windows Home Inventory program that keeps track of all your household items for insurance purposes. **My Life** is the definitive diary, word processor, scrapbook, and multi-media scrapbook available for Windows. **Win Change** is the only utility that allows you to make global changes to text strings in GRP, INI, PIF and other types of files. **Writer's Cramp** is a simple, small, inexpensive word processor that uses a database for storing letters. **Writer's Cramp LE** is a simple, small, inexpensive word processor. These programs can be found on CompuServe (WINSHARE forum) and America Online (Windows software) with a keyword of JRE.

JRE Enterprises can be contacted on CompuServe via mail to ID 71162,2311 or contacted on America Online via mail to ID Leel641756.
