iMac

Features

Affordable performance
- 500- or 600-MHz PowerPC G3 processor
- ATI RAGE 128 Ultra 3D accelerated graphics with 16MB of video memory
- 128MB or 256MB of SDRAM; supports up to 1GB
- High-capacity hard disk drives—20GB or 40GB[1]

Easy setup and use
- All-in-one system; just plug in the computer and you're ready to go
- Mac OS X—the most advanced yet intuitive operating system ever
- Preinstalled applications so you can begin working and playing right away

Fast, easy Internet access
- 30 days of free Internet service from EarthLink
- Setup Assistant software that can get you on the Internet in just minutes
- Mac OS X Mail and Microsoft Internet Explorer to help you communicate and browse the Internet
- High-speed 56K modem[2]
- Built-in 10/100BASE-T Ethernet, ready to connect to a DSL or cable modem
- Support for AirPort wireless networking[3]

Great start to your digital lifestyle
- USB and FireWire ports for connecting digital cameras, DV camcorders, iPod and other MP3 players, and high-performance storage devices
- iPhoto software for organizing and sharing all your digital pictures[4]
- Award-winning iMovie software to create professional-looking digital movies
- iTunes software for organizing and listening to your favorite MP3s, and downloading to Apple's new iPod or other MP3 players[5]
- Slot-loading CD-RW drive for burning custom music and data CDs (selected models)
- Clear, powerful Harman Kardon Odyssey audio system

iMac is the perfect introduction to all things digital, including movies, music, photos, the Internet, and more. With a simple, all-in-one design and loads of built-in software, iMac is the easy and affordable way to work and play.

A breeze to set up, iMac will have you surfing the web in just minutes. It comes with a built-in modem and Ethernet and gives you 30 days of free Internet service from EarthLink. Sign up for an iTools membership and enjoy a suite of Internet services from Apple that includes a Mac.com email address, a place to store and share your files, and tools to create your own website. And with optional AirPort, you can do it all wirelessly from almost anywhere in your home, school, or office.[3]

iMac comes with Mac OS X—the most advanced yet intuitive operating system ever—so you can easily make the most of all the latest software and digital devices. Designed for the Internet and the digital lifestyle, it includes best-in-class applications for working and playing. What's more, Mac OS X is built on a super-modern foundation that gives your iMac unprecedented performance and bulletproof reliability.

New iPhoto software makes it easy to manage all the pictures you take with your digital camera. Simply import images; add titles, keywords, and comments for easy searching; and organize them into albums. Then share your pictures and memories via email, on the Internet, in a slide show, or with professional-quality books or prints.[4]

Always wanted to sit in the director's chair? With iMac, you can even create your own movies using the included iMovie software. Simply shoot footage with your digital camcorder. Connect it to your iMac via FireWire and use iMovie to import your footage and add titles, transitions, music, and special effects. You can play your masterpiece full screen on your iMac, save it on videotape through your camcorder, and even share it on the web using HomePage, a feature of iTools.

If you're into music, wait until you see all you can do with iTunes on your iMac.[5] For starters, you can import songs from CDs, convert them to MP3 files, and arrange playlists of your favorite music. You can tune in to Internet radio broadcasts and listen to everything through headphones or the built-in Harman Kardon Odyssey audio system. If you're in the mood to take your music with you, download your tunes to your iPod or other MP3 player, or if your iMac has a built-in CD-RW drive, burn custom CDs.

Simple. Powerful. Affordable. iMac.

Technical Specifications

Processor and memory
- 500- or 600-MHz PowerPC G3 processor with 256K on-chip level 2 cache running at full processor speed
- 100-MHz system bus
- 128MB or 256MB of PC100 SDRAM; two DIMM slots support up to 1GB using 128MB, 256MB, or 512MB DIMMs

Storage
- 20GB or 40GB Ultra ATA hard disk drive[1]
- One of the following optical drives:
— Slot-loading 24x-speed (maximum) CD-ROM drive
— Slot-loading 8x4x24x-speed (maximum) CD-RW drive (writes CD-R discs at 8x speed, writes CD-RW discs at 4x speed, reads CDs at 24x speed)
- Support for external FireWire and USB storage devices

Display
- Built-in 15-inch shadow-mask CRT (13.8-inch diagonal viewable image size); 0.28-mm dot pitch
- Onscreen geometry adjustment to keep display images properly aligned throughout its lifetime
- Theater Mode for enhanced brightness of full-screen video using iMovie or QuickTime Player
- Flip foot for 17° tilt

Graphics support
- ATI RAGE 128 Ultra graphics accelerator with 16MB of SDRAM graphics memory; AGP 2X support
- Three crisp, flicker-free screen resolutions: 640 by 480 pixels at 117 Hz, 800 by 600 pixels at 95 Hz, and 1024 by 768 pixels at 75 Hz
- 24-bit true color at all resolutions for displaying millions of colors

Communications
- Built-in 56K V.90 modem (RJ-11 connector)[2]
- 10/100BASE-T Ethernet (RJ-45 connector)
- Built-in antennas and card slot for optional 11-Mbps AirPort Card; IEEE 802.11b compliant[3]

Peripheral connections
- Two USB ports (12 Mbps each) on computer; two USB ports on keyboard
- Two 400-Mbps FireWire (IEEE 1394) ports[6]; includes 4-pin-to-6-pin FireWire cable for connecting DV camera

Audio
- Integrated high-performance Odyssey audio system by Apple and Harman Kardon
- Built-in microphone for speech recognition and audio recording
- Front-mounted dual mini headphone jacks (headphones not included)
- Analog audio input and output minijacks; up to 16-bit stereo and 44.1-kHz sampling rate
- Support for external USB audio devices

Video
- Standard VGA output port (15-pin mini D-Sub connector)
- Support for video mirroring: external devices display an image identical to that shown on the built-in display

Keyboard and mouse
- Apple Pro Keyboard with full-size function and navigation keys, audio controls, and CD-eject key
- Apple Pro Mouse with optical sensor for precise cursor control

Electrical requirements and agency approvals
- Line voltage: 100V to 260V AC
- Frequency: 47 to 63 Hz, single phase
- Maximum continuous power: 150W
- Meets ENERGY STAR requirements

Environmental requirements
- Operating temperature: 50° to 95° F (10° to 35° C)
- Storage temperature: –40° to 116° F (–40° to 47° C)
- Relative humidity: 5% to 95% noncondensing
- Maximum altitude: 10,000 feet

Size and weight
- Height: 15.0 inches (38.1 cm)
- Width: 15.0 inches (38.1 cm)
- Depth: 17.1 inches (43.5 cm)
- Weight: 34.7 pounds (15.8 kg)

Configurations

Order no.	M8534LL/D—Indigo	M8492LL/C—Graphite M8546LL/C—Snow
Processor	500-MHz PowerPC G3	600-MHz PowerPC G3
Memory (PC100 SDRAM)	128MB	256MB
Hard disk drive[1]	20GB Ultra ATA	40GB Ultra ATA
Optical drive	CD-ROM	CD-RW
Graphics support	ATI RAGE 128 Ultra with 16MB SDRAM	ATI RAGE 128 Ultra with 16MB SDRAM
FireWire	Two ports	Two ports
USB	Four ports	Four ports
VGA video mirroring	Yes	Yes
Modem[2]	56K	56K
Ethernet	10/100BASE-T	10/100BASE-T
Wireless networking[3]	AirPort ready	AirPort ready

All models include Apple Pro Keyboard; Apple Pro Mouse; FireWire camcorder cable; modem cable; Mac OS X v10.1, Mac OS 9.2, QuickTime, iMovie 2, iTunes 2, AppleWorks, Mac OS X Mail, Microsoft Internet Explorer, EarthLink, AOL, Quicken 2002 Deluxe, World Book Mac OS X Edition, Otto Matic, Mac OS X Chess, PCalc, Acrobat Reader, and FAXstf 10.0 Preview; Apple Hardware Test CD; complete setup, learning, and reference documentation; limited warranty; and 30 days of free Internet service through EarthLink.

Internet access requires an Internet service account; fees may apply. Product contains electronic documentation. Backup copy of software is provided on CD-ROM.

Build-to-Order Options

In addition to choosing from Apple's preconfigured systems, you can order an iMac with factory-installed options such as additional RAM and AirPort wireless networking from your authorized Apple reseller or the online Apple Store. For up-to-date information, visit www.apple.com/store or call 800-MY-APPLE.

Other Options

Product	Order no.
AirPort Card	M7600LL/C
AirPort Base Station	M8209LL/A
iPod	M8513LL/A
AppleCare Protection Plan	M7812LL/B

[1] 1GB = 1 billion bytes; actual formatted capacity less.

[2] Actual modem speeds lower; speed depends on connection rate and other factors.

[3] Wireless Internet access requires AirPort Card, AirPort Base Station, and Internet access (fees may apply). Some ISPs are not currently compatible with AirPort. Range may vary with site conditions.

[4] iPhoto may require Internet download; Internet access fees may apply. Hardcover book and print ordering services are available only in the U.S. and Canada (English version only); fees apply. Internet access is required.

[5] iTunes is for legal or rightholder-authorized copying only. Don't steal music.

[6] Actual rates will vary.

Service and Support

Your iMac comes with 90 days of telephone support and a one-year limited warranty. Purchase the AppleCare Protection Plan to extend your service and support to three full years. Only the AppleCare Protection Plan provides you with direct telephone support from Apple technical experts and the assurance that repairs will be handled by Apple-certified technicians using genuine Apple parts. For more information, visit www.apple.com/support/products or call 800-823-2775.

For More Information

For more information about this product or to find out where to buy Apple products, visit www.apple.com/hardware or call 800-538-9696. You can purchase Apple products from your authorized Apple reseller, the online Apple Store (www.apple.com/store or 800-MY-APPLE), or Apple's retail stores.

Visit the Macintosh Products Guide at www.apple.com/guide for the latest information on more than 18,000 hardware and software products for your new computer.

Apple offers iTools, a suite of services that uses the power of the Internet to help you get the most out of your Mac. Visit www.apple.com to sign up.
